Cured Daughter's Eczema.

"I had eczema on my hands for ten years.

At first it would break out only in winter.
Then it finally came to stay.
I had three good doctors to do all they could but none of them did any good. I then used one box of Cuticura Cintment and three bottles of Cuticura Resolvent and was completely cured. My hands were raw all over, inside and out, and the eczema was spreading all over, inside and out, and the eczema was spreading all over, my body and limbs. Before I had used one bottle of Cuticura Resolvent, together with the Cuticura Ointment, my sores were nearly healed over, and by the time I had used the third bottle, I was entirely well. I had a good appetite and was fieshier than I ever was. To any one who has any skin or blood disease I would honestly advise them to fool with nothing else, but to get Cuticura and get well. My hands, cured by the use of Cuticura, have never given me the least bit of trouble up to now. I cannot recommend Cuticura and per word, it has done me and my family so much good. My daughter's hands this summer became perfectly raw with eczema. Bhe could get nothing that would do them any good until she tried Cuticura. She used two bottles of Cuticura Resolvent and one box of Cuticura Colument and in two weeks they were entirely cured. I have used Cuticuras for other members of my family and it always proved successful. I recommend it to any one with eczema. After once using it you will never use anything else. Mrs. M. E. Falin,
